L'inconfondibile unione fra design e artigianato caratterizza i prodotti del brand Glass Design.

The synergy between design and craftsmanship is synonymous with the Glass Design brand.

Collezioni esclusive comprendono oggetti unici, realizzati con cura, portando avanti una tradizione artigianale inimitabile.

Exclusive collections comprising unique items, all made with the utmost of care, embody and carry forward a wealth of artisanal tradition.

Forme e colori che prendono vita da un'interminabile passione per l'eccellenza.

Shapes and colours come to life, signalling an endless passion for excellence.

Italian Artisan Crafted

Leonardo Da Vinci

Vinci - Tuscany

Glass Design è un'eccellenza Italiana nella produzione e nel design di lavabi e complementi d'arredo bagno. **Glass Design** is an Italian excellence in the production and design of bathroom washbasins and interior decoration furnishings.

Situata a Vinci, cuore della Toscana e città natale di "Leonardo da Vinci", Glass Design è stata fondata nel 1984 dalla famiglia Borsellini, dopo una pluriennale esperienza nella manifattura del vetro artistico. Utilizzando materiali tecnologicamente avanzati, come il Siliconio o l'Inox e lavorando ad arte su materiali tradizionali, come il cristallo molato o il vetro artistico, Glass Design contribuisce alla creazione di un nuovo stile dove l'accessorio, curato nei minimi dettagli, diventa il soggetto principale dell'ambiente, un vero prodotto "moda", apprezzato nel mondo ed esportato in più di 60 paesi.

Located in Vinci, in the heart of Tuscany and native town of "Leonardo da Vinci", Glass Design was founded in 1984 by the Borsellini family, further to a long tradition in manufacturing artistic glass. Both by using technologically advanced materials such as stainless steel or silicone, and by working in an artistic way with traditional materials like the formed 24%pb crystal and the artisan glass, the company Glass Design contributes to the creation of a new style, where even the accessory is addressed in all details, becoming the main subject of the environment, a true "fashion" product, highly appreciated in the world and exported to more than 60 countries.

Oltre 200 artigiani Toscani e una quindicina di vetrai muranesi appartengono alla filiera produttiva aziendale, permettendo di adattare ogni prodotto ad esigenze e richieste specifiche del cliente, con infinite personalizzazioni realizzando così, prodotti unici ed esclusivi.

Over 200 Tuscan artisans and more than 15 glassmakers of Murano work within the company's production chain, enabling the customization of each product to suit individual needs and specific requirements, in order to create unique and exclusive products.

LAVABI WASHBASINS

L'idea di realizzare dei lavabi d'arredamento nasce dal desiderio di sperimentare un percorso unico, alternativo, dove la ricerca di nuovi materiali, applicati nel settore bagno, ha portato a dei risultati del tutto innovativi. Da una pluriennale esperienza nella lavorazione del cristallo, siamo riusciti a realizzare lavabi in Vetro di Murano, Marmo di Carrara fino ad arrivare al Siliconio e, proprio attraverso la diversità dell'anima di queste materie, siamo in grado di offrire situazioni e sensazioni concettualmente nuove.

The decision to create diverse collections of washbasins stems from the desire to take a new and alternative approach. This involves researching new materials and applying them to a bathroom environment, resulting in a portfolio that is both innovative and unique.

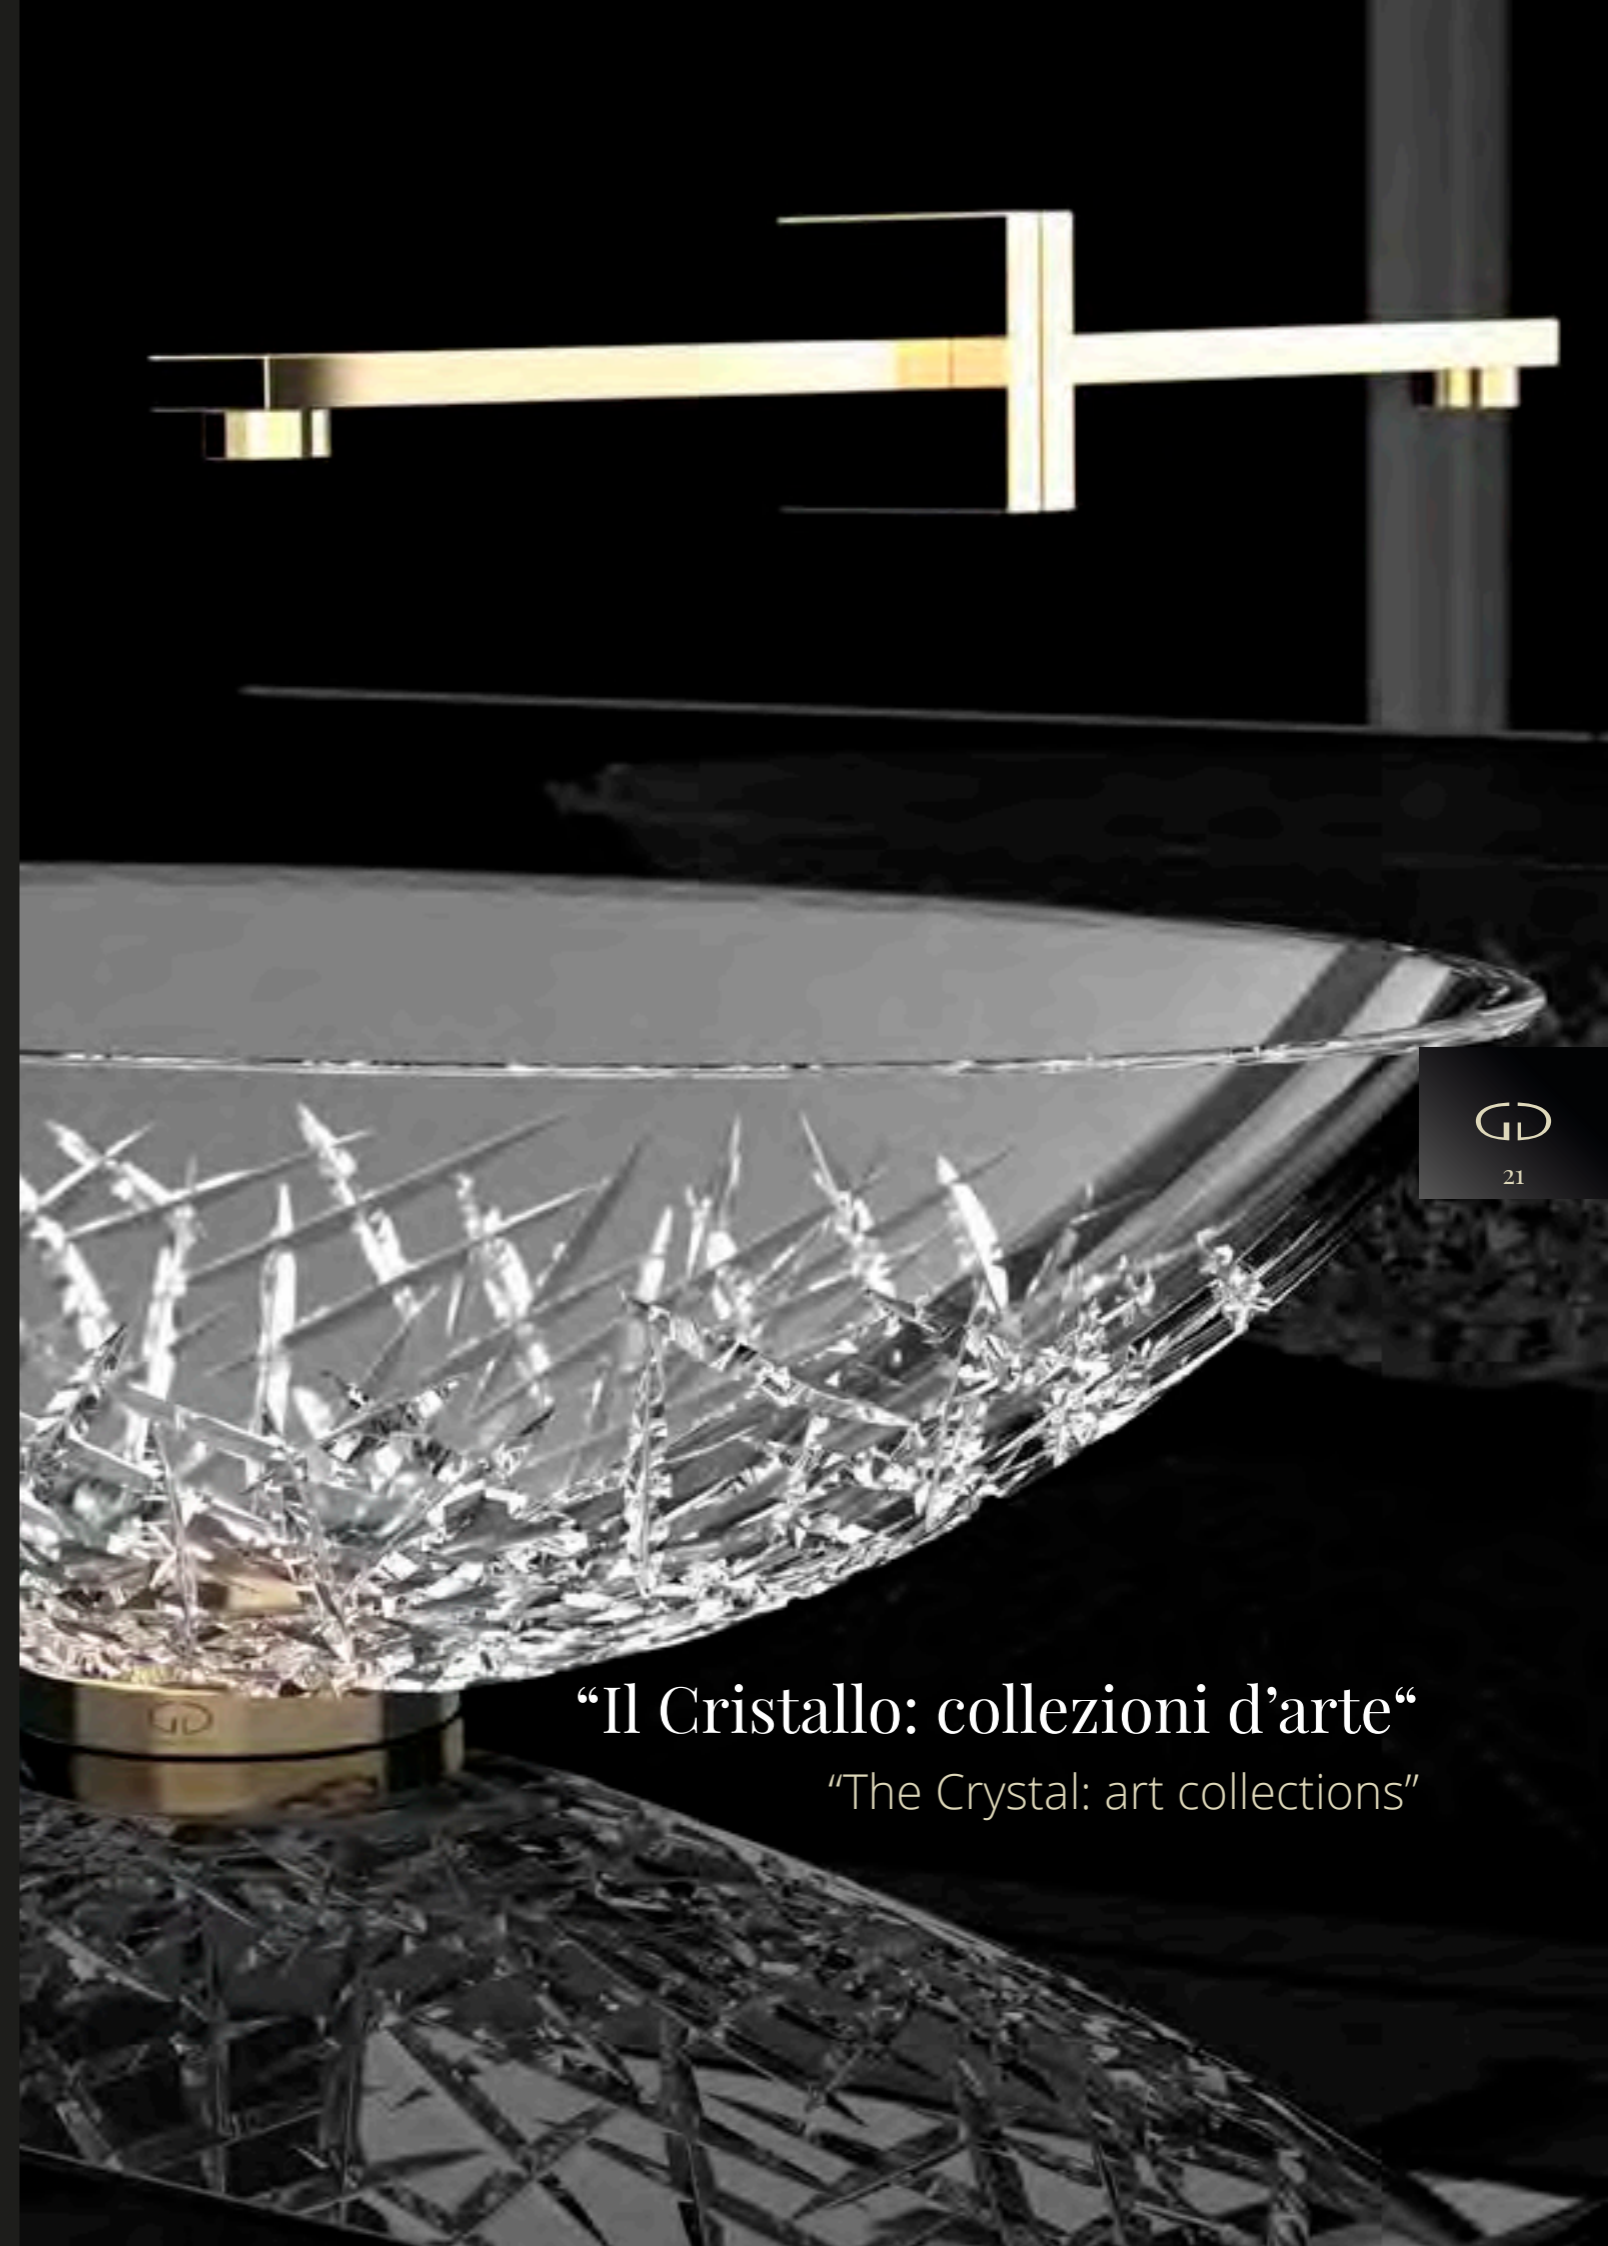

Following a long tradition in the manufacture of crystal, we now make basins from Murano Glass, Carrara marble and even Siliconio and, thanks to their individual properties and innate differences, the various materials allow us to introduce previously undiscovered looks, textures and sensations.

Dalle più antiche e nobili arti vetrarie.
From the ancient and noble glass arts.

Collezioni esclusive, realizzate in cristallo purissimo al 24% pb.
Si tratta di prodotti raffinatissimi, soffiati a bocca e molati a pietra con abilità, dai nostri maestri secondo le più antiche e nobili arti vetrarie. Nessuna macchina, nessuna tecnologia, ma solo prodotti d'arte, classici, contemporanei ... futuristici.

Exclusive collections created from pure crystal with 24% lead content.
These utmost refined products are mouth-blown and bevelled in stone by our master artists according to the most ancient and noble glass arts. Neither machines nor technology are employed in the process, resulting in classical, contemporary or futuristic art products.

MURANO[®]
glass

Dalla tradizione millenaria un oggetto unico e prestigioso.
Creating masterpieces with artisan traditions.

Il vetro di Murano è da sempre sinonimo di raffinatezza, leggerezza ed eleganza. I maestri vetrai hanno saputo sviluppare tecniche di lavorazioni privilegiate, nel rispetto della millenaria tradizione che rende il vetro di Murano un prodotto unico, prestigioso e inimitabile.

Murano glass is a synonym for elegance and timelessness. By combining innovative techniques with traditional artisan workmanship, unique, prestigious and inimitable objects are created.

 Marmo
CARRARA

Quando l'arte incontra la natura.
When art meets nature.

Il marmo estratto dalle famose cave di Carrara è il più prezioso e ricercato al mondo. Michelangelo lo usò per realizzare il suo David, capolavoro della scultura rinascimentale, proprio per la sua particolare bellezza e le sue inconfondibili venature sinuose.

Unici tra i marmi - Calacatta e Marquinia - permettono di dare libero sfogo al design nella ricerca della sua forma ideale, garantendo lusso estetico unito alle migliori prestazioni di duratura e alle nuove tendenze tecnologiche.

The marble extracted from the famous quarries of Carrara is the most valuable and sought after in the world. Michelangelo chose it to create David, the masterpiece of Renaissance sculpture, thanks to its particular beauty and its distinctive veins. Unique among marbles - Calacatta and Marquinia - give free rein to design in the pursuit of its ideal form, in order to combine aesthetic luxury with long-lasting performances and the latest technological trends.

VetroFreddo®

L' esaltazione della materia attraverso l'anima del suo colore.
A unique material. Expressive colours.

Il Vetro Freddo® è un materiale innovativo, composto da pigmenti vetrosi e resine.

La sua caratteristica principale è la sua versatilità nell'adattarsi a qualsiasi tipo di forma.

È l'esaltazione della materia che si esprime attraverso l'anima del suo colore. La natura della sua materia, composta da pigmenti vetrosi e pertanto trasparenti, permette al VetroFreddo® di avere uno dei suoi principali punti di forza, e cioè la possibilità di esprimersi in colori trasparenti, traslucidi od opachi. Nessun limite quindi a livello cromatico e, oltre alla gamma di colori già esistente, è possibile scegliere in base alle proprie esigenze, uno dei numerosi colori presenti nella mazzetta "RAL". Il VetroFreddo® ha una resistenza termica di circa 100°C e può essere lavorato con gli stessi utensili del marmo o del vetro. Tutti gli oggetti in VetroFreddo® si possono lavare con qualsiasi tipo di sapone o detergente neutro non granulare, usando panni o spugne non abrasive. In caso di graffi superficiali, si può ripristinare l'oggetto intervenendo con un panno imbevuto di olio d'oliva o una semplice crema per le mani. In caso di graffi più profondi, è possibile ripristinare con una speciale carta vetro suggerita dal produttore in base al colore o al tipo di oggetto.

VetroFreddo® is an innovative material composed of glass pigments and resin. Its major characteristics are its versatility in adapting itself to any form or shape imaginable. The material's unique characteristics are expressed through the soul of its colour, which can be in clear, semi-transparent or opaque form, due to the material composition of glass pigments. No limits exist in regards to colour. Apart from the existing range of colours, any colour from the "RAL" colour scheme can be chosen. VetroFreddo® is temperature resistant up to approximately 100°C and can be worked with and carved just as marble or glass. All objects designed with the material VetroFreddo® can be cleaned with any type of non-granular soap, using soft sponges or tissues.

In case of superficial damage (scratches), the damaged area should gently be rubbed with a sheet soaked in olive oil.

In case of deeper scratches or damage, a special replacement glass paper is available from the manufacturer for every colour and type of object.

Pert®
polimero tecnologico

Leggerezza e design sposano la tecnologia.
Light weight, spectacular design, innovative technology.

Il Pert® è un polimero tecnologico dalle qualità eccezionali, che unisce un basso peso specifico ad un'elevata resistenza meccanica. Particolarmente adatto in quei settori dove l'esigenza della leggerezza del peso è fondamentale (nautico, aereo, camper...). E' un materiale che permette la realizzazione di prodotti di elevato design, eseguiti a regola d'arte, rispettando angoli, raggi, bassorilievi e planarità con la possibilità di scelta tra una vasta gamma di colori, personalizzabili a richiesta.

Pert® is a technological polymer of extraordinary quality, combining a low specific weight with high mechanical resistance. It is particularly suited to fields where light weight is essential (e.g. in nautical, aeronautical, camping, etc). It is a material which enables the creation of products of high design, finely made, allowing perfectly crafted angles and a smoothly plane surface, with the possibility of choosing among a wide range of colours to suit individual demand.

Alumix[®]
lega d'alluminio

L'hi-tech, elegante e contemporaneo.
Distinguishing with contemporary elegance.

Prodotto hi-tech, elegante e contemporaneo che nasce da una fusione di lega di alluminio. La decorazione é realizzata a pennello, con la tecnica del graffiato, per ottenere un effetto bicromatico. Il bordo é spazzolato e lucidato a mano, per valorizzare l'anima ed il colore tipico di questo materiale.

A high-tech product, both elegant and contemporary, born from a merger of aluminum alloys. The decorations are brush-painted, employing a special brush technique in order to obtain a bi-chromatic effect. The board is brushed and polished by hand to enhance the soul and color, which are typical for this material.

Florence Glass
ATELIER[®]

L'ultima tendenza di oggetti decorati a mano.
Avant-garde trends in artisan product design.

Il progetto Atelier nasce dalla ricerca stilistica che una nostra equipe interna realizza rivolgendo lo sguardo al mondo della moda. I colori e le texture che vengono rappresentati nel programma sono la sintesi delle nuove tendenze.

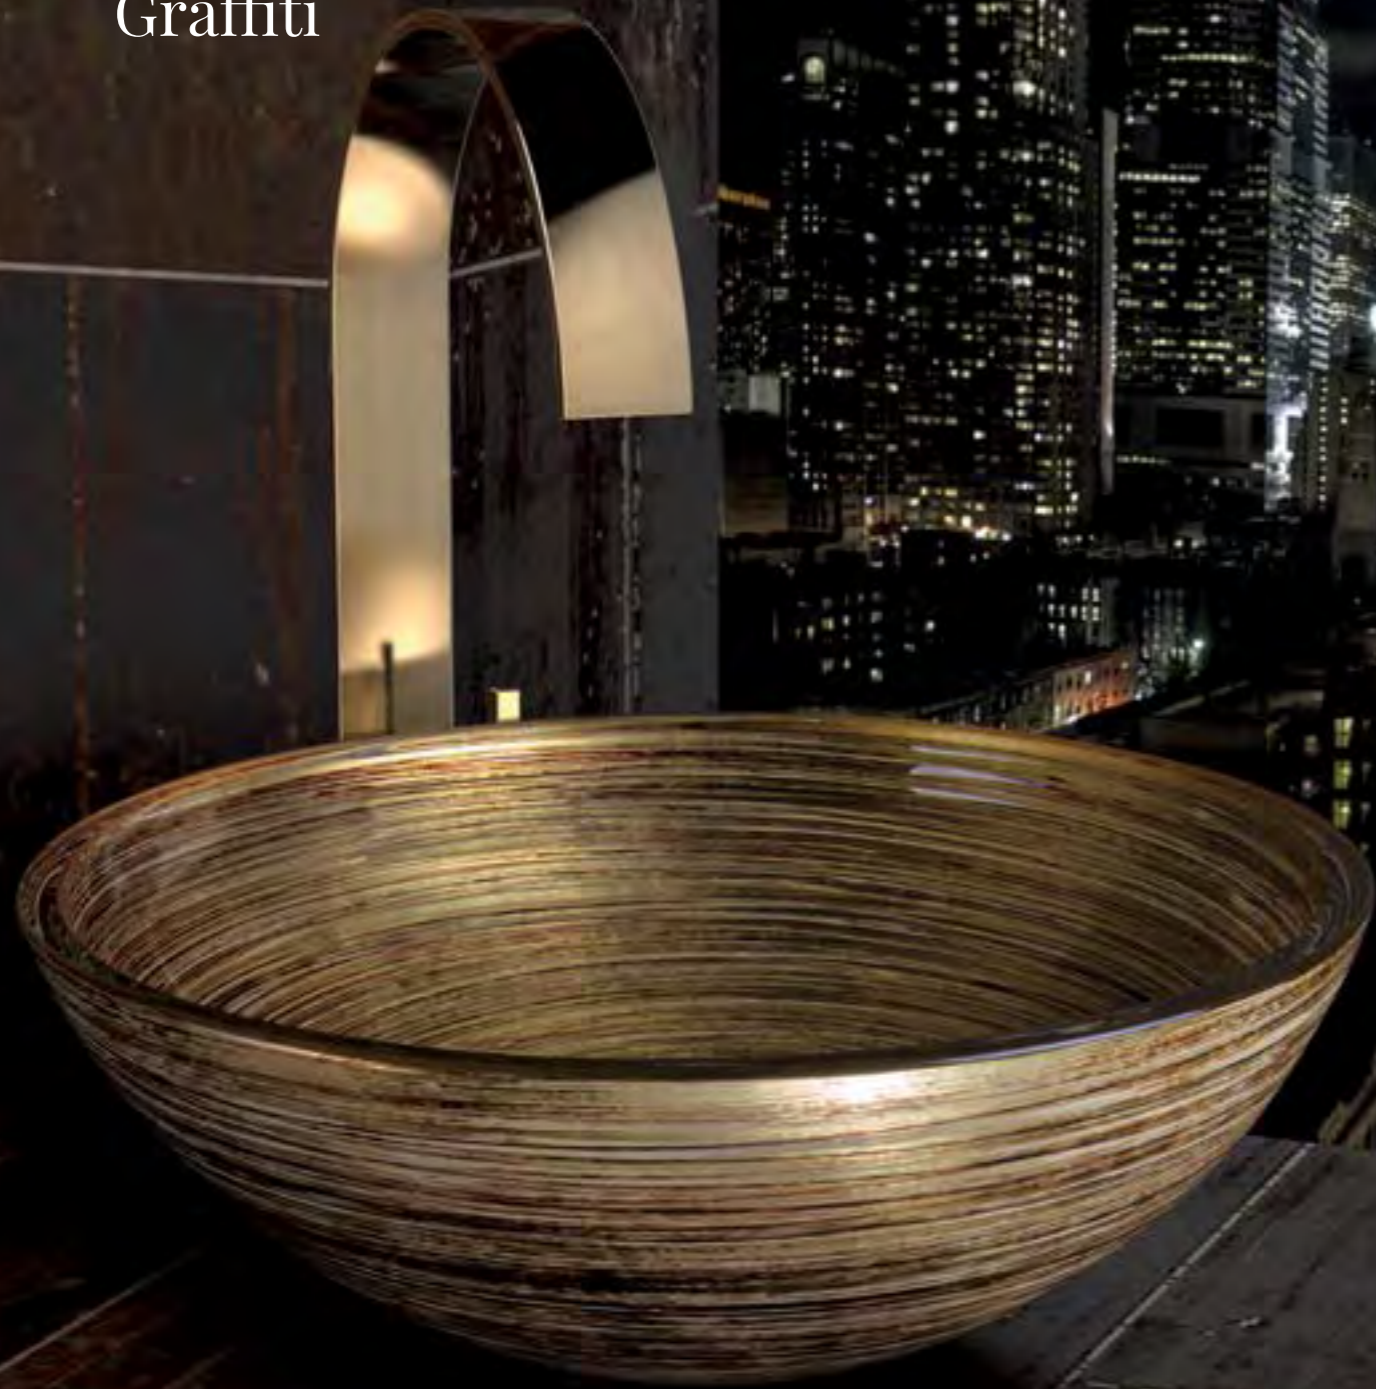

The "Florence Glass Atelier" project is inspired by embedding the philosophy of the fashion world into product research. The focus lays on enhancing crystal material with colours and textures of fashion trends.

“Collezioni esclusive

Tradizione senza tempo.
Timeless tradition.

La terra come fonte di ispirazione per rappresentare colorazioni e sensazioni tattili con finiture bicolore e texture esterne.

Terra di Siena una collezione di lavabi in ceramica realizzati interamente a mano. Lievi differenze cromatiche e imperfezioni di forma sono testimonianza dell'artigianalità del processo produttivo.

Earth is the source of inspiration for colours and tactile sensations with bi-colour finishes and textural exteriors.

The Terra di Siena collection of ceramic washbasins is made entirely by hand. Slight colour differences and shape imperfections are testimony to the craftsmanship of the production process.

INOX ZERO

L'evoluzione dell'inox.
Stainless steel evolution.

Nuova tecnologia applicata per dar vita ad un prodotto inox (18/8) tridimensionale.
Peso specifico ridottissimo nonostante i volumi.
Varie sono le espressioni cromatiche dal colore tipico dell'inox lucido, spazzolato fino all'ultima generazione di colori high-tech.

The products of the INOX ZERO Collection are made out of stainless steel (18/8), utilising advanced production processes enabling the combination of expressive design with of low weight. A wide range of colours can be achieved, from timeless metallic shades to prestigious brushed and avant-garde colours.

Siliconio®

Il design tattile, morbido, elastico, sensuale.
Touch and feel - soft and sensual.

Siliconio®, ultima generazione della famiglia dei siliconi. Via al design all'insegna dell'elasticità, dalle forme più rigorose che sfruttano le grandi potenzialità di questa materia, a quelle più bizzarre e originali. E' un materiale dalle forti sensazioni tattili: morbido, elastico, sensuale, unico. Siliconio®, quale materiale elastico, può essere sottoposto a torsioni, allungamenti e piegamenti ed in corso di rilascio torna alla sua forma originale. Siliconio® è idrorepellente, antinfortunistico, resistente a temperature tra -60°C e +250°C, lavabile, autoestinguente, atossico, dotato di resistenza chimica eccellente. Siliconio® è Touch design per eccellenza.

Siliconio®, is the latest development in the family of silicone materials. Featuring unique designs based on its elasticity, it allows for rigorous shapes, benefiting from the great potential of the material, being amongst the most unique and original. It is a material of touch: soft, elastic, sensual - simply unique. Siliconio® can be bent and folded in any possible way, always returning to its original form once released. Siliconio®, is water-repellent and, soft, thus reducing the risk of injury, but also resistant to extreme temperatures from -60°C to +250°C, washable, self-extinguishing, non-toxic and with excellent chemical resistance characteristics. Siliconio® is 'Touch design' at its very best.

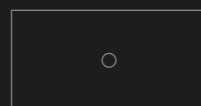

“Touch design per eccellenza”
“Excellence you can touch and feel”

LAVABI DA TERRA

FREESTANDING WASHBASINS

I Freestanding della Glass Design nascono dalla passione e dall'impegno di dar vita a molto di più di un semplice lavabo ma ad una vera e propria scultura da terra.

Un prodotto essenziale, impreziosito dalle più esclusive colorazioni e finiture che lo rendono il vero protagonista dell'ambiente.

Freestanding washbasins from Glass Design are borne from a passion and commitment to create more than just a simple washbasin but rather a real sculpture from the ground up. This essential product is embellished by exclusive colours and finishes making it a true protagonist of its environment.

VASCHE BATHTUBS

Design e colore sono le caratteristiche essenziali delle nostre vasche da bagno, realizzate in "BiMat", materiale resistente ed ultra leggero. In abbinamento ai nostri lavabi, offrono la possibilità di creare un ambiente armonioso.

Design and colour are the essential characteristics of our bathtubs which are fashioned from "BiMat", a light yet highly resistant material. In conjunction with the basin collection, they offer the possibility of a harmonious and coordinated design scheme.

DA VINCI Mobili legno

Wood furniture

Il lusso nel piccolo

La nostra filosofia è creare oggetti che al di là della loro dimensione possono suscitare emozioni e al tempo stesso siano pratici e tecnicamente funzionali. Abbiamo pensato ad un prodotto adatto anche agli spazi più contenuti, riuscendo a realizzare mobili in stile moderno, classico e contemporaneo che potessero impreziosire anche il bagno più piccolo.

A luxury space saving solution

Our philosophy is to create objects that stir up emotions larger than their size while at the same time exhibiting technical functionality and practicality. We have created a product suitable for even the smallest of spaces, managing to create furniture in classic, contemporary and modern styles that will enrich even the smallest bathroom.

UNIKO Mobili metallo

Metal furniture

L'uniko programma per il bagno in cui minimalismo, fascino, funzionalità e versatilità si fondono grazie all'ecclettismo delle finiture e delle dimensioni proposte. Un must che da sempre contraddistingue la creatività firmata Glass Design e che rende le sue proposte universali e senza tempo. Piccoli spazi o grandi ambienti potranno godere di questi microcosmi funzionali dal forte carattere estetico ed essenziale.

The uniko programme is the only bathroom and cloakroom range where minimalism, charm, functionality and versatility all merge into one, thanks to the diversity of finishes and sizes on offer. such is the creative quality that has always distinguished Glass Design, making its products so universal and timeless. Small or large spaces can benefit equally from these clean-lined "microcosms" which, though compact, boast a sizeable character

Piletta scarico libero

Piletta in ottone a scarico libero con logo GD Waste with free flow plug with GD logo (Ø 70 - H 100 mm)

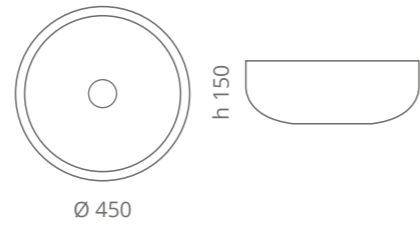

Piletta con troppo pieno automatico

Piletta in ottone cromato con troppopieno integrato, con logo GD
Waste with integrated overflow in chrome plated brass, with GD Logo (Ø 63 - H 66 mm)
La piletta si apre automaticamente raggiunto il livello di sicurezza del lavabo permettendo lo scarico dell'acqua.
The waste with integrated overflow automatically opens once the basin safety is reached, allowing the water to drain.

Cristallo DE' MEDICI Pb 24%

Collezioni esclusive, realizzate in cristallo purissimo al 24% pb.

Si tratta di prodotti raffinatissimi, soffiati a bocca e molati a pietra con abilità, dai nostri maestri secondo le più antiche e nobili arti vetrarie. Nessuna macchina, nessuna tecnologia, ma solo prodotti d'arte, classici, contemporanei, futuristici.

Exclusive collections created from pure crystal with 24% lead content.

These utmost refined products are mouth-blown and bevelled in stone by our master artists according to the most ancient and noble glass arts. Neither machines nor technology are employed in the process, resulting in classical, contemporary or futuristic art products.

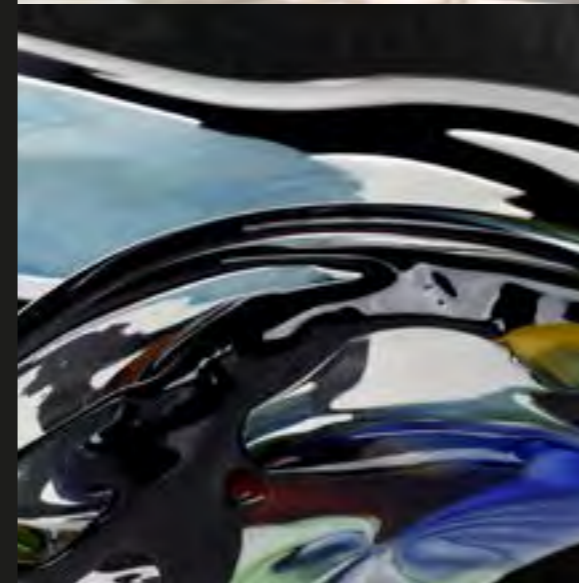

Il vetro di Murano è da sempre sinonimo di raffinatezza, leggerezza ed eleganza.

I maestri vetrai hanno saputo sviluppare tecniche di lavorazioni privilegiate, nel rispetto della millenaria tradizione che rende il vetro di Murano un prodotto unico, prestigioso e inimitabile.

Murano glass is a synonym for elegance and timelessness.

By combining innovative techniques with traditional artisan workmanship, unique, prestigious and inimitable objects are created.

Il marmo estratto dalle famose cave di Carrara è il più prezioso e ricercato al mondo. Michelangelo lo usò per realizzare il suo David, capolavoro della scultura rinascimentale, proprio per la sua particolare bellezza e le sue inconfondibili venature sinuose.

Unici tra i marmi - Calacatta e Marquinia - permettono di dare libero sfogo al design nella ricerca della sua forma ideale, garantendo lusso estetico unito alle migliori prestazioni di durata e alle nuove tendenze tecnologiche.

The marble extracted from the famous quarries of Carrara is the most valuable and sought after in the world. Michelangelo chose it to create David, the masterpiece of Renaissance sculpture, thanks to its particular beauty and its distinctive veins.

Unique among marbles - Calacatta and Marquinia - give free rein to design in the pursuit of its ideal form, in order to combine aesthetic luxury with long-lasting performances and the latest technological trends.

Materiali Materials

Vetro Freddo®

Il Vetro Freddo® è un materiale innovativo, composto da pigmenti vetrosi e resine. La sua caratteristica principale è la sua versatilità nell'adattarsi a qualsiasi tipo di forma. È l'esaltazione della materia che si esprime attraverso l'anima del suo colore. La natura della sua materia, composta da pigmenti vetrosi e pertanto trasparenti, permette al VetroFreddo® di avere uno dei suoi principali punti di forza, e cioè la possibilità di esprimersi in colori trasparenti, traslucidi od opachi. Nessun limite quindi a livello cromatico e, oltre alla gamma di colori già esistente, è possibile scegliere in base alle proprie esigenze, uno dei numerosi colori presenti nella mazzetta "RAL". Il VetroFreddo® ha una resistenza termica di circa 100°C e può essere lavorato con gli stessi utensili del marmo o del vetro.

Tutti gli oggetti in VetroFreddo® si possono lavare con qualsiasi tipo di sapone o detergente neutro non granulare, usando panni o spugne non abrasive. In caso di graffi superficiali, si può ripristinare l'oggetto intervenendo con un panno imbevuto di olio d'oliva o una semplice crema per le mani. In caso di graffi più profondi, è possibile ripristinare con una speciale carta vetro suggerita dal produttore in base al colore o al tipo di oggetto.

VetroFreddo® is an innovative material composed of glass pigments and resin. Its major characteristics are its versatility in adapting itself to any form or shape imaginable. The material's unique characteristics are expressed through the soul of its colour, which can be in transparent, semi-transparent or opaque form, due to the material composition of glass pigments. No limits exist in regards to colour. Apart from the existing range of colours, any colour from the "RAL" colour scheme can be chosen. VetroFreddo® is temperature resistant up to approximately 100°C and can be worked with and carved just as marble or glass. All objects designed with the material VetroFreddo® can be cleaned with any type of non-granular soap, using soft sponges or tissues.

In case of superficial damage (scratches), the damaged area should gently be rubbed with a sheet soaked in olive oil.

In case of deeper scratches or damage, a special replacement glass paper is available from the manufacturer for every colour and type of object.

Pert®

polimero tecnologico

Il Pert® è un polimero tecnologico dalle qualità eccezionali, che unisce un basso peso specifico ad un'elevata resistenza meccanica. Particolarmente adatto in quei settori dove l'esigenza della leggerezza del peso è fondamentale (nautico, aereo, camper...). È un materiale che permette la realizzazione di prodotti di elevato design, eseguiti a regola d'arte, rispettando angoli, raggi, bassorilievi e planarità con la possibilità di scelta tra una vasta gamma di colori, personalizzabili a richiesta.

Pert® is a technological polymer of extraordinary quality, combining a low specific weight with high mechanical resistance. It is particularly suited to fields where light weight is essential (e.g. in nautical, aeronautical, camping, ...).

It is a material which enables the creation of products of high design, finely made, allowing perfectly crafted angles and a smoothly plane surface, with the possibility of choosing among a wide range of colours to suit individual demand.

Alumix®

Prodotto hi-tech, elegante e contemporaneo che nasce da una fusione di lega di alluminio. La decorazione è realizzata a pennello, con la tecnica del graffiato, per ottenere un effetto bicromatico. Il bordo è spazzolato e lucidato a mano, per valorizzare l'anima ed il colore tipico di questo materiale.

A high-tech product, both elegant and contemporary, born from a merger of aluminum alloys. The decorations are brush-painted, employing a special brush technique in order to obtain a bi-chromatic effect. The board is brushed and polished by hand to enhance the soul and color, which are typical for this material.

Florence Glass ATELIER®

Il progetto Atelier nasce dalla ricerca stilistica che una nostra equipe interna realizza rivolgendo lo sguardo al mondo della moda. I colori e le texture che vengono rappresentati nel programma sono la sintesi delle nuove tendenze.

The "Florence Glass Atelier" project is inspired by embedding the philosophy of the fashion world into product research.

The focus lays on enhancing crystal material with colours and textures of fashion trends.

La terra come fonte di ispirazione per rappresentare colorazioni e sensazioni tattili con finiture bicolore e texture esterne.

Terra di Siena una collezione di lavabi in ceramica realizzati interamente a mano. Lievi differenze cromatiche e imperfezioni di forma sono testimonianza dell'artigianalità del processo produttivo.

Earth is the source of inspiration for colours and tactile sensations with bi-colour finishes and textural exteriors.

The Terra di Siena collection of ceramic washbasins is made entirely by hand. Slight colour differences and shape imperfections are testimony to the craftsmanship of the production process.

INOX ZERO®

Nuova tecnologia applicata per dar vita ad un prodotto inox (18/8) tridimensionale.

Peso specifico ridottissimo nonostante i volumi.

Varie sono le espressioni cromatiche dal colore tipico dell'inox lucido, spazzolato fino all'ultima generazione di colori high-tech.

The products of the INOX ZERO Collection are made out of stainless steel (18/8), utilising advanced production processes enabling the combination of expressive design with of low weight. A wide range of colours can be achieved, from timeless metallic shades to prestigious brushed and avant-garde colours.

Siliconio®

Siliconio®, ultima generazione della famiglia dei siliconi. Via al design all'insegna dell'elasticità, dalle forme più rigorose che sfruttano le grandi potenzialità di questa materia, a quelle più bizzarre e originali. E' un materiale dalle forti sensazioni tattili: morbido, elastico, sensuale, unico. Siliconio®, quale materiale elastico, può essere sottoposto a torsioni, allungamenti e piegamenti ed in corso di rilascio torna alla sua forma originale. Siliconio® è idrorepellente, antinfortunistico, resistente a temperature tra - 60°C e + 250°C, lavabile, autoestinguente, atossico, dotato di resistenza chimica eccellente.

Siliconio® è Touch design per eccellenza.

Siliconio®, is the latest development in the family of silicone materials. Featuring unique designs based on its elasticity, it allows for rigorous shapes, benefiting from the great potential of the material, being amongst the most unique and original. It is a material of touch: soft, elastic, sensual - simply unique. Siliconio® can be bent and folded in any possible way, always returning to its original form once released. Siliconio®, is water-repellent and, soft, thus reducing the risk of injury, but also resistant to extreme temperatures from -60°C to +250°C, washable, self-extinguishing, non-toxic and with excellent chemical resistance characteristics. Siliconio® is 'Touch design' at its very best.

Bi-mat

Il Bi-Mat nasce dalla fusione di fibra di vetro (80%) con VetroFreddo Light, integrati tra loro per produrre un materiale innovativo, ultraleggero e resistente. La sua particolare composizione rende il prodotto estremamente versatile, conferendo leggerezza ad oggetti di grossi volumi, come nel caso delle vasche, facilitandone l'utilizzo e la collocazione. La superficie esterna si presenta bianca semilucida frutto della spazzolatura a mano ed è particolarmente idonea ad essere trattata nelle svariate tonalità cromatiche, permettendo di creare prodotti unici.

Bi-Mat is born in the merger of fiberglass (80%) and Cool Glass Light, creating an innovative material that is both lightweight and durable. It's particular composition makes the product extreme versatile, allowing objects of large volume, for example a bathtub, to be lightweight for easy use and placement. The outer surface is white gloss and brushed by hand and particularly suitable for processing in a variety of colours and allowing the creation of unique products.
